VOCATIONAL EDUCATION

MEETING OF CORK COUNTY COMMITTEE

Ballingeary College

CHAIRMAN'S STATEMENT ON ENGLISH PRESS REPORT

At a meeting of the Cork County Vocational Education Committee, on Tuesday, the Rev. Father McCarthy, P.P. (Chairman) presided. Also present:—Very Rev. M. Canon Barrett, P.P., D.Ph. (Vice-Chairman), Very Rev. M. Canon O'Leary, P.P.; Right Rev. Monsignor Hill, P.P., V.G.; Very Rev. S. Wignmore, D.D., Adm.; Rev. M. Daly, P.P.; Rev. P. McSwiney, C.C., M.A.; Messrs. T. Guiney, M.C.C.; B. W. Brasier, M.C.C.; George Power, M.C.C., U.D.C.; E. Carey, M.C.C., U.D.C.; Seán O'Connor, H.C.; C.U.D.C.; W. C. O'Keefe, U.D.C.; D. McCarthy, N.T., P.C.

BALLINGEARY COLLEGE.

The Department wrote, relative to the proposal that the Committee should bear one-third of the cost of building two additional rooms to the Irish College at Ballingeary, and requesting the Committee to furnish the following particulars in connection therewith:—(1) Whether a lease of the Irish College premises is being given to the Committee, and, if so, the period of the lease. (2) The annual rental sought for the period of the lease. (3) The estimated cost of the proposed extension of the Irish College premises.

On the suggestion of the Secretary, it was agreed to let the matter stand over for further information.

RAILWAY EXAMINATIONS.

A communication was read from the Great Southern Railways regretting that the Committee's request for an examination centre for female clerkships for Cork cannot be acceded to, as all the arrangements have been made for the holding of the examination in Dublin on the 27th March, and they could not possibly be altered now. As regards future examinations for clerkships, the Committee's suggestion that a centre should be provided for Cork will be fully considered.

Mr. O'Connor—I suppose we cannot do anything more. I hope the Cork shareholders will kick up a stindy about it.

The Rev. Chairman said that seemed to be the position.

The County Board of Public Health forwarded the following resolution, which had been passed by that body for the adoption of the Committee:—

"That the public water main at Castle-town where he extended a distance of approximately 200 yards to serve the proposed new technical school and houses in the vicinity, and that the Engineer be directed to prepare the necessary specification and estimate."

The resolution was passed unanimously.

The Committee considered the minutes of the Irish sub-committee, held on the 6th inst., and adopted the recommendations to hold special courses for technical teachers and Irish instructors at Inchigeela, and for scholarship holders and others at Ballingeary.

The Committee further agreed to the recommendations made regarding the Irish scholarships.

Mr. O'Connor dissented from the paragraph relating to special courses for technical teachers. He thought that from July 2nd to August 24th was too long as teachers would be engaged at their ordinary duties up to the end of June and would re-start the first week in September.

LACE AND CROCHET CLASSES.

A very lengthy correspondence was read in connection with the formation of a class in lace and crochet at Fermoy during the present session.

Mr. O'Connor—As this is a domestic matter I presume it will be discussed in the absence of the Press.

The Rev. Chairman—Yes. It is the usual course in domestic matters.

The correspondence was then dealt with, but no action was taken.

DOMESTIC ECONOMY CLASSES

The Rev. Chairman said he had seen a report in one of the English papers that 800 girls went to England last year in search of domestic service. Six hundred of those Irish girls went to London, and the Catholic Rescue Society, which had dealt with a considerable number of such cases, had expressed the view that the Society did not encourage those emigrants to go to London, and that it was very sad that they should leave their homes. They would like to keep those girls at home, but they were still going away in large numbers. The Catholic Society complained that the girls had no training for domestic life beyond taking the lowest position in the kitchen or scullery, and said it was a pity they did not get an education in domestic economy. The teaching of domestic economy to them was not as widespread as that committee would like to see it. Some parents did not seem to realise that an opportunity practically for nothing was at the disposal of girls to prepare them for the filling of remunerative positions when they left their homes. They were leaving the country districts and going into the cities of Dublin and Cork and elsewhere. Mistresses were anxious to get girls who would be useful helpers, and especially girls with a knowledge of Irish, to be spoken in the homes and to the children. Irish was being taught in the primary schools, and children were leaving the primary schools with a fairly good knowledge of Irish, and if these children when they became of a riper age availed themselves of the existing opportunities given them they would find domestic economy and a knowledge of the Irish language most useful to them, even if they had to go outside this country. He (the Rev. Chairman) was afraid that they had not a sufficient domestic economy staff. It had not been increased to the extent of the demand that existed. They really should have more domestic economy instructors at their disposal.

Mr. Brasier inquired about the domestic economy class for Cloyne.

The Secretary replied that there was no teacher available at present. The teachers were engaged at permanent centres.

Mr. Brasier said he hoped the matter would not be lost sight of.
